for Spring Planting - 1936

Daphne Cneorum

THE GARLAND FLOWER

Throughout the late depression there was only one plant in the entire list the sales of which did not fall off. Every year, without exception, we have sold every first class Daphne we had. When one knows Daphne this is not to be wondered at since it is about the loveliest plant that grows out of the ground.

The Daphne is a dwarf, trailing evergreen shrub which never grows above a foot tall. It is absolutely the finest plant in existence for rock gardens. It is the loveliest thing imaginable for edging evergreen or other plantings. In bloom it is covered with indescribably beautiful soft pink flowers and it usually blooms twice and sometimes three times a year.

Daphne Cneorum

8 to 12 Inch

65¢ each

\$6.00 PER DOZ.

These are large balled and burlapped plants of the finest quality and cannot be mailed. All orders for this superlative grade will be shipped by express.

Daphne Cneorum

Mailing Size

35¢ each

\$3.00 PER DOZ.

Finely grown 6- to 8-inch plants which are not too heavy to be mailed safely. Planted in good soil they will make full sized plants by fall.

If wanted by parcel post, add 15¢ for single plants, 10¢ each for three or more plants.

ELLIOTT NURSERY COMPANY

EVANS CITY, PENNSYLVANIA

FOXGLOVES (*Digitalis*)

IN England the Foxglove grows wild, but, notwithstanding this, it is a great garden favorite as it well deserves to be. For stately and picturesque beauty it is not to be surpassed, and, planted in masses, in the garden among shrubs or naturalized on the edge of woods, in the orchard or along brooks, it is extremely effective and satisfactory. Strictly speaking, excepting for the Shirley, it is a biennial, but, as it renews itself from self-sown seed, it may be treated as a perennial. Thousands of Foxgloves have been naturalized in the Schenley Park. The Foxgloves will stand considerable shade.

Foxglove Gloxinioides

Alba. The ever-popular white Foxglove. 3 for 75c; \$2.25 per doz.

Purpurea. Stately purple spotted flowers. 3 for 75c; \$2.25 per doz.

Rosea. A lovely rose-flowered Foxglove. 3 for 75c; \$2.25 per doz.

Mixed. 3 for 75c; \$2.25 per doz.

The Shirley. A magnificent strain of perennial Foxglove created by Rev. W. Wilks in England, which produces plants 6 to 7 feet high with gorgeous flower heads over 3 feet long. A magnificent and permanent addition to the garden. 3 for 85c; \$2.50 per doz.

If wanted by parcel post, add 13c for each three plants.

AQUILEGIA Long Spurred Columbines

For centuries before the Long Spurred Hybrid Columbines were thought of, Aquilegias were loved and cherished as being among the most valuable of all the garden plants. Now that the dreams of the plant breeders have come true and the Long Spurred Hybrids are an accomplished fact, the Aquilegias are even more popular than they were with our ancestors. Without the modern Columbine, it wouldn't be a garden.

Alba grandiflora. A white Long Spurred Columbine.

Caerulea. The beautiful Rocky Mountain Columbine and the loveliest of all the Aquilegias.

Chrysantha. Beautiful golden yellow flowers produced for two months or more.

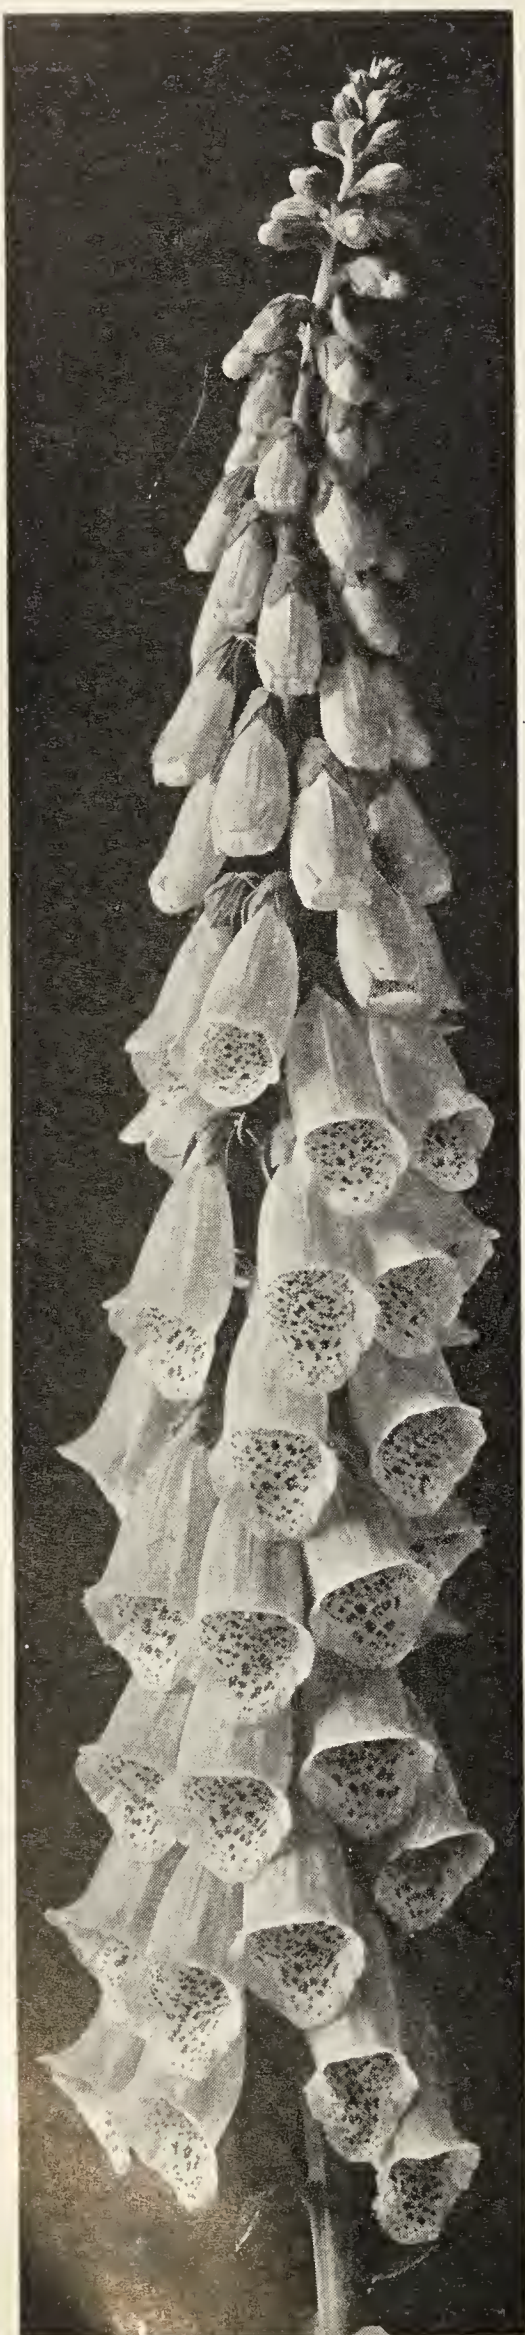

Mrs. Scott Elliott Hybrids. Absolutely the finest and loveliest strain of Long Spurred Hybrids in existence.

Any of the above varieties: 3 for 65c; \$2.25 per doz.

The New PINK AQUILEGIA

Rose Queen. A new and very lovely pink Columbine. A pure color heretofore never obtainable. 3 for \$1.00; \$3.00 per doz.

If wanted by parcel post, add 13c for each 3 plants.

Shirley Foxgloves

Aquilegia, Mrs. Scott Elliott Hybrids

New Hybrid Korean Chrysanthemums

THESE new Hybrid Korean Chrysanthemums are better than the older types because they are hardier, more beautiful in color, earlier, easier to grow, and more profuse in blooming. The lovely new pastel shades, which defy description, suggest the Gerbera in their daintiness. Cut with short stems, they make charming table decorations, while the full spikes 2 feet or more long make glorious bouquets. As garden flowers they have no equals.

The parent strains of these gorgeously beautiful new Chrysanthemums are natives of Korea, which is one of the coldest countries in the world. As a consequence, they are much hardier and will stand much more abuse than the older types.

Apollo. Superb sparkling combination of bronze, red and gold, suffused with glowing salmon. Single flowers, 2 inches across, produced in immense sprays.

Ceres. A lovely combination of old gold, chamois-yellow and soft, coppery bronze. The mature flower petals appear dusted with gold.

Daphne. An exquisite blending of Daphne-pink, with an underlying sheen of lilac-rose, enhanced with prominent golden stamens in the center. Sprays of single flowers, 3½ inches in diameter.

Diana. Triple rays of Chatenay-rose-pink, mingled with lilac-rose and soft salmon petals.

Mars. Striking deep amaranth-red, changing to wine-red, overlaid with velvety sheen.

Mercury. Single, 3-inch flowers open bronze-red and change to coppery bronze as they mature. The lovely graceful sprays when cut keep 2 to 3 weeks.

Any of the above varieties: 3 for \$1.00; \$3.00 per doz.

If wanted by parcel post, add 10c for each 3 plants.

Hybrid Korean Chrysanthemums

Shasta Daisy, Avalanche

CHRYSANTHEMUM MAXIMUM (*Shasta Daisy*)

These are improvements on the famous Shasta Daisy first created and introduced by the late Luther Burbank. The Daisy-like flowers, measuring between 3 and 4 inches in diameter, are of the purest white and borne on long stems. In addition to their garden value these Daisies are universally considered the finest possible plants for cut flowers.

Arcticum (Arctic Daisy). This variety brings tremendous quantities of flowers from September to November and the flowers are slightly tinged with rose. 3 for 60c; \$2.00 per doz.

Avalanche. Incomparably the finest of all the Shasta Daisies. Tremendous flowers, 4½ to 5 inches in diameter, of the purest glistening white, blooming all summer and fall. 3 for 65c; \$2.00 per doz.

White Swan. A new, double Shasta Daisy just introduced and one that is truly fine. It produces solid double, pure white flowers on stems from 18 to 24 inches in length. Planted in satisfactory soil conditions, it will produce from 15 to 20 flowers the first year and the flowers are equally effective in the garden or as cut flowers. 50c each; \$5.00 per doz.

If wanted by parcel post, add 13c for each 3 plants.

Hardy Pompon CHRYSANTHEMUMS

CHRYSANTHEMUMS are the last plants to bloom in the fall and make the garden glow when there are no other flowers to be had. No other class of plants give such a wide range of color—white, yellow, bronze, scarlet, crimson with innumerable intermediate softer tones. In masses they are particularly effective, while scattered clumps enliven the whole garden. Chrysanthemums in the garden mean flowers a month after your neighbor has none.

The Four Newest Pompon Chrysanthemums

Annie Fletcher. Gorgeous, clear yellow flowers of the Aster type borne on stately, erect stems. The strong, sturdy flowers are produced in tremendous abundance and bloom the first of October. Unlike many Chrysanthemum varieties, the foliage is good and the fine leaves cover the entire stem throughout the growing season. A truly splendid variety.

Grenadier. Glowing crimson-red flowers $3\frac{1}{2}$ inches across borne in clusters. The individual flowers have a golden tint on the petal reverse which combine with the prominent center giving a marvelous contrast with the bright crimson of the main flower color. The variety produces in tremendous masses and in full bloom is glorious beyond description.

Murillo. This new variety is the outstanding pink sort. The pink color is remarkable for its loveliness and the plant flowers profusely. Undoubtedly the richest of all the pink varieties.

September Queen. The outstanding white variety and a real improvement over what has gone before. The individual flowers measure $3\frac{1}{2}$ inches across and the color is the clearest, cleanest white. The plants grow compactly and when in full bloom resemble huge balls of snow.

Any of the above varieties: 3 for \$1.00; \$3.00 per doz.

Aladdin. The newest of the Chrysanthemums, finer than anything which has preceded it. Beginning in July the flowers appear in an endless procession until frost. Its lovely color resembles that of the famous Talisman Rose, being lovely golden bronze stained apricot, light red and damask pink.

Autumn Glory. Large, double flowers of lovely deep fawn-orange suffused with carmine and with a golden reverse.

Crimson Splendor. Magnificent masses of rich crimson-maroon flowers, intensified with deep garnet tones, golden yellow centre. Flowers are fully 4 inches across.

Indian. One of the older sorts which has held its place because of its superior qualities. The large, shaggy flowers are a lovely coppery red shade which has a universal appeal. So far nothing even as good in its color has been developed.

Jean Treadway. Lovely sparkling pink with a dark rose-pink center. Flowers fully 3 inches across.

Lillian Doty. This large, perfect, bright pink Chrysanthemum is still the first choice of the professional florists. Though we have had it for 20 years or more, its superior has not yet been created.

Mrs. J. Willis Martin. Crushed strawberry colored flowers.

October Girl. Clear rose-pink flowers 2 inches in diameter.

Peggy Ann Hoover. A sturdy plant growing 2 feet or more and entirely different and distinct from any other Chrysanthemum. The color is a clear lilac-pink and the flower shape resembles a Show Dahlia with exceptionally strong incurved stamens.

Pink Cushion. Absolutely the finest pink Chrysanthemum. The color is beautiful; the flowers come continuously throughout the entire fall and the plant is completely covered. Nothing equals it.

Ruth Cumming. Beautiful bronzy terra cotta.

Ruth Hatton. When fully opened it is clear ivory-white; when partially open, a delicate shade of lemon-yellow.

Tassiva. The finest white Chrysanthemum. Flowers completely cover the entire plant.

Varsity. Altogether the finest and most desirable of the yellow Chrysanthemums.

Vivid. The color closely approaches that of the American Beauty Rose. A shade new to the Chrysanthemums.

Any of the above varieties: 25c each; \$2.50 per doz.

If wanted by parcel post, add 15c for each 6 plants.

Tall English DELPHINIUMS

WE are tempted to say that the improved English Delphiniums are the most beautiful hardy plants in cultivation. Blooming all summer, coming up year after year, sending aloft successive shafts of incredible color to a height of 5, 6, or 8 feet, it is doubtful if any other plant so superb as Delphinium ever graced a garden.

Few people are aware of the perfection to which the ancient flower has been brought by modern plant breeding, how easily it can be planted and grown, and how lasting a delight the gardener secures who plants Delphinium. If everyone knew, tall hardy Delphiniums would be more in evidence everywhere.

We offer especially selected plants grown from seeds of famous named varieties. Will grow anywhere but do best in rich garden soil. Every imaginable tint and shade of blue, lavender and purple. We promise you'll find positive joy in their extraordinary bloom.

The New White Delphinium

For fifty years or more plant breeders have been working to produce a satisfactory white Delphinium. There have, of course, been white Delphiniums but the color was always a dirty gray-white which we refused to grow or handle. Now at last the long sought-for white Delphinium is here. The color is pure white without a trace of the nasty gray shade. Like other Hybrid Delphiniums the plants are tall, growing up to 6 feet or more and their habit is that of the older Delphiniums. The new white strain requires no special treatment and should be handled exactly as you are accustomed to handling the older Hybrids. 50c each; 3 for \$1.25; \$4.50 per doz.

Elliott's Magnificent Varieties

Improved English Hybrids. Grown from the finest Blackmore and Langdon strains. Range in color from very light blue to very dark blue, overlaid irregularly with tones of pink and lavender, rose and lilac, black spots on pistil and anthers at center of flower. Many blossoms show white secondary petals at base of the major petals. A wonderful wealth of color variation in the English Hybrids. 3 for \$1.00; \$3.00 per doz.

Fine Mixed English Hybrids. Seedlings grown from the finest English and American strains. 3 for 75c; \$2.50 per doz.

Chinese Delphiniums

The lovely little Chinese Delphiniums grow about 2½ feet. There are three colors: White, dark blue, and light blue.

Delphinium chinense. Dark blue. 3 for 65c; \$2.00 per doz.

Delphinium chinense alba. Pure white. 3 for 65c; \$2.00 per doz.

Delphinium chinense, Azure Fairy. The new azure-blue Delphinium. 3 for 65c; \$2.00 per doz.

Improved English Hybrids

If wanted by parcel post, add 13c for each three plants.

Oriental Poppies

"I REMEMBER well the first time I saw an Oriental Poppy. I was a boy then, and it excited me wonderfully, and I thought it was the most remarkable flower in the world. And now, after 50 years have gone by, and I have seen all the known flowers of the world, I am still of the opinion that it is wonderful; one of the most striking and effective perennials in cultivation." Our founder, Mr. J. Wilkinson Elliott, wrote this 15 years ago and it is still true. One who has not seen the blazing beauty of the Oriental Poppies has not yet seen a garden.

We grow the finest varieties in cultivation. They are:

Beauty of Livermore. This gorgeous new variety is the deepest of the oxblood-red sorts and shows the least orange in its coloring. 3 for 75c; \$2.50 per doz.

Bracteata. Enormous blazing crimson-scarlet flowers with glistening black blotches at the base of the petals. 3 for 70c; \$2.25 per doz.

BRIGHTNESS (New). Vivid orange-scarlet flowers. Beautifully crimped petals toned with glistening gold. 3 for \$1.25; \$4.00 per doz.

Cerise Beauty. Extra large, bright pink with purple blotch. 3 for 75c; \$2.50 per doz.

Edna Perry. Tremendous flowers of bright rose-pink. A splendid example of the so-called pink Poppies. 3 for 75c; \$2.50 per doz.

Grand Mogul. Splendid brilliant red variety. The color is so brilliant as to be almost blinding in the sunlight. 3 for 75c; \$2.50 per doz.

LULA A. NEELY. This is the newest of the Oriental Poppies and is so superior to anything which has preceded it that it becomes by comparison the outstanding garden plant. The color is a brilliant oxblood-red and does not fade. The gorgeous flowers are borne on strong, erect stems. 50c each; \$5.00 per doz.

Mrs. Perry. Salmon-rose and the closest approach to pure pink in the Oriental Poppies. The finest of the pink varieties. 3 for 75c; \$2.50 per doz.

OLYMPIA. The flowers of this variety are double, 4 inches in diameter and colored a brilliant, vivid flame-scarlet overlaid with golden salmon. The earliest to bloom and produces a tremendous crop of flowers. 3 for \$1.25; \$4.00 per doz.

Oriental Poppy, Lula A. Neely

PERRY'S WHITE. The most startlingly distinct Poppy variety and one of the world's outstanding flowers. Tremendous blooms of the purest satiny white with a crimson blotch at the base. Grown adjacent to the colored sorts, the effect is really breath taking. 50c each; \$5.00 per doz.

Princess Ena. Tulip-like flowers of orange-salmon. 3 for 75c; \$2.50 per doz.

Royal Scarlet. Rich, blazing scarlet flowers produced in great profusion. 3 for 75c; \$2.50 per doz.

Orientele. The type from which the others were evolved. Tremendous cup-shaped blooms of the brightest crimson-scarlet. 3 for 65c; \$2.00 per doz.

If wanted by parcel post, add 13c for each three plants; 27c for a dozen plants.

Hardy CARNATIONS

The Carnation flowers which you buy from your florist are tender plants which must be grown in a greenhouse. For years there has been a persistent demand for hardy Carnations for garden use and the plant breeders have answered the demand, giving us four new creations. If the flowers are cut off, the plants will produce Carnations for you all season. The flowers resemble the florists' Carnation and are very lovely.

Crimson King. The gorgeous new crimson Carnation dazzling in color and the finest of all the Carnations. 3 for \$1.00; \$3.00 per doz.

Grenadin Pink. The lovely new pink Carnation. 25c each, \$2.00 per doz.

Grenadin Red. The beautiful new red Carnation. 25c each, \$2.00 per doz.

Grenadin White. The stunning new white Carnation. 25c each, \$2.00 per doz.

If wanted by parcel post, add 12c for each three plants.

Grenadin Carnation

Polyanthus, Munstead Giant

Primula Auricula. Rather neat and formal plants forming rosettes of thick meaty leaves from the center of which rise flower stalks 6 to 8 inches tall bearing heads of bloom in an assortment of colors all of which are exceedingly fragrant. 3 for \$1.00; \$3.00 per doz.

If wanted by parcel post, add 13c for each three plants; 27c per dozen plants.

Eupatorium Coelestinum (HARDY AGERATUM)

Of the hundreds of varieties of plants in our display gardens none are so popular as the so-called Hardy Ageratum. Almost without exception every customer who calls here and sees it in bloom orders it. Its color, a lovely light purple, is almost identical with the famous annual Ageratum but unlike its namesake, it is perennial and hardy, standing in our gardens temperatures down to thirty degrees below

zero. It is even a more prolific bloomer than the tender Ageratum and develops literally myriads of its lovely flowers. A truly wonderful border plant which is exceptionally fine for cut flowers. 3 for 60c; \$2.00 per doz.

If wanted by parcel post, add 13c for each three plants; 27c per dozen plants.

POLYANTHUS or COWSLIP (*Primula*)

THIS charming spring blooming plant belongs to the Primrose family, the hardy varieties of which are so very popular in England, but are rarely seen in this country, owing partly to an impression that they cannot be grown in this climate. This is a mistake, as they do very well here. For the front of the borders and shrubbery, for spring bedding, and for naturalizing in moist and partly shaded places nothing can be finer. The coloring in the flowers is especially rich and fine. At this writing we have a long border of these plants in bloom in our garden, and nothing gives us greater pleasure. They are so charming in habit, rich and varied in coloring, and so early to bloom, coming with the spring-flowering bulbs, that nothing can be more acceptable. We use them freely for decorating the dining table and library windows, taking plants up from the border and putting them in fern dishes and pots, where they go on blooming as if they had never been disturbed. Their hardiness has been pretty well settled by the severe winter of 1933 and 1934. The minimum temperature at our country place was 24 degrees below zero. Not a single Polyanthus was injured, and they were planted in wet soil at that.

Munstead Giant. A new and very lovely strain of bunch-flowered Primroses. The flowers are all shades of yellow, cream, dark orange, pink and dark red. Can be furnished in mixtures only. 3 for 75c; \$2.25 per doz.

The Spechley. A lovely new strain of Giant Flowering Primroses created by the late Mrs. Berkley of Spechley Park in England. The plants are strong and robust and the lovely flowers are immense, with colors ranging through a tremendous variety of beautiful art shades and tones. 3 for 75c; \$2.25 per doz.

Veris. A vigorous and lovely bunch-flowered strain, the flowers of which are colored lilac, purple, violet, buff, orange, salmon and rich reds. 3 for 75c; \$2.25 per doz.

Veris alba. Similar in habit to Veris except the flowers are colored white. 3 for 75c; \$2.25 per doz.

Eupatorium Coelestinum

VERONICA (SPEEDWELL)

BESIDES being one of the most beautiful races of perennials in existence, the Speedwells are among the most useful. In the first place their hardiness is unquestioned and, secondly, hardly anything is easier to grow. Then somewhere within the group may be found a variety for practically every garden purpose. The taller form, like *Longifolia Subsessilis* or *Spicata Alba* or *Spicata Rosea*, belong naturally from the middle to the

back of the hardy garden or border; the intermediate forms, like *Amethystina* or *Hendersoni*, should be in the foreground of the same garden beds or borders, and will find a place in the larger rockeries, and the dainty little *Rupestris* is indispensable in rock garden planting and nothing can be lovelier for edging. Furthermore, the beautiful colors: white, blue or pink, blend most harmoniously and one must not forget that the flowers are produced at a time when there is little else blooming in the garden.

Amethystina. This lovely variety produces beautiful spikes of rich gentian-blue flowers on 10 to 15 inch stems during June and July. 3 for 75c; \$2.50 per doz.

Longifolia Hendersoni nana. *Veronica longifolia subsessilis* is one of the finest hardy plants in cultivation. This variety is a dainty, smaller edition of *Veronica longifolia subsessilis*, with all the merits of its larger brother and of the same lovely blue color. 3 for 75c; \$2.50 per doz.

Longifolia subsessilis. It is hardly necessary to describe this beautiful plant, being already so well known and universally popular. Is the tallest of the group, growing about 2½ feet. Produces spikes from July to September completely studded with the most beautiful blue flowers. While nothing is better for the hardy border, the flowers are equally as good for cutting. 3 for \$1.00; \$3.00 per doz.

Spicata alba. This lovely variety produces flower spikes about 2 feet tall, which bloom all summer. The flowers are pure snowy white. 3 for 75c; \$2.50 per doz.

Spicata rosea. This variety produces lovely pink flowers. 3 for 75c; \$2.50 per doz.

Rupestris. A dwarf variety growing 3 to 4 inches high with thickly matted, deep green foliage which is completely hidden in June under a cloud of bright blue flowers. Since this variety will stand partial shade, it is a good ground cover for shrubbery borders to say nothing of its uses in the garden or the rockery. 3 for 75c; \$2.50 per doz.

Teucrium, Royal Blue. A medium sized variety growing 12 to 15 inches, which in June and July completely covers itself with blossoms of the most intense and lovely royal blue. 3 for 75c; \$2.50 per doz.

Teucrium Trehari. This variety has golden yellow foliage. 3 for 75c; \$2.50 per doz.

If wanted by parcel post, add 13c for each three plants.

Liatris Caliopsis (Kansas Gay Feather)

Kansas Gay Feather is one of the most interesting of all garden plants. It produces long, narrow spikes about three feet tall of lovely rich purple flowers blooming in mid-summer. Not only is it splendid in the garden but in addition it is one of the loveliest and most effective of all cut flowers. Perhaps its most interesting and desirable feature, however, is its attraction for butterflies. When in bloom it would seem to attract all the butterflies from miles around and we have seen the flower spikes so covered with these lovely little creatures that it was impossible to determine which was the more beautiful, the color of the flower or the fluttering iridescent color of the butterflies. We of the Elliott organization who are professional horticulturists and often more or less "fed up" with beautiful things can still watch the lovely combination of flower and insect color with absorbed interest for hours. 3 for 60c; \$2.00 per doz.

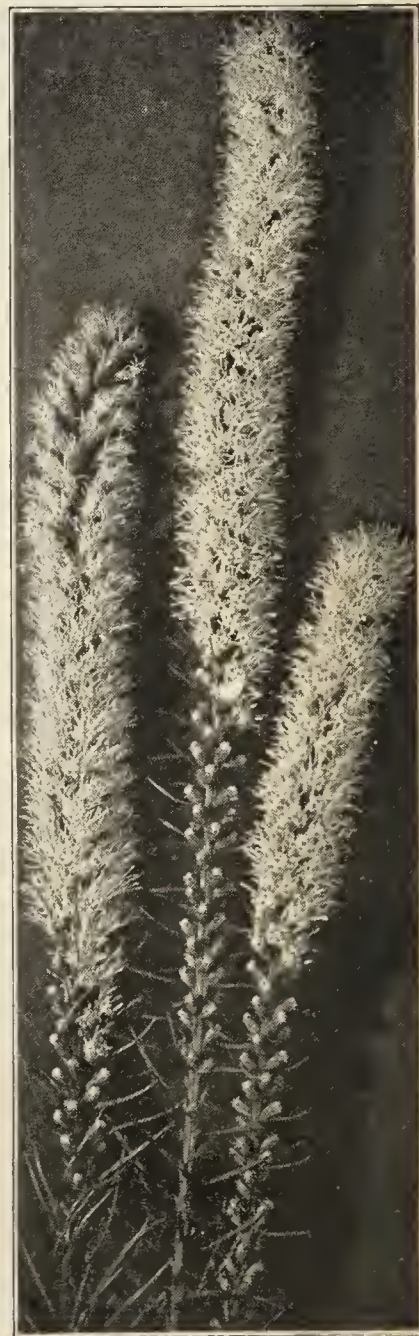

If wanted by parcel post, add 12c for each three plants.

Veronica Rupestris

Veronica Longifolia Hendersoni Nana

Liatris Caliopsis

The Glory of the September Garden

ANEMONE JAPONICA

(Japanese Windflower)

COMING into flower about the last week in August and lasting until cut down by heavy frosts which, in the latitude of Pittsburgh, may not be until the middle of November, blooms the glorious Japanese Windflower. The lovely flowers are about the size of a dollar and are borne in tremendous profusion on stems 2½ to 3 feet tall. Depending on the variety selected, the flowers may be single, double or semi-double and the colors may be white, pink or red. The Japanese Windflowers create not only the finest imaginable effects in the September garden but are in addition the finest of all possible cut flowers. Because of their habits of growth the Windflowers, though massive, permit graceful and delicate flower arrangements avoiding any suggestion of stiffness or awkwardness. They have long been a favorite of Mr. Elliott's and when he was practicing landscape architecture he never failed to include them in substantial quantities in every garden he designed. The Japanese Windflowers are among the truly outstanding perennials.

Alba. Single flowers of the purest, cleanest white with a rich yellow center. 3 for 85c; \$2.50 per doz.

Alice. The newest of the semi-double pink Windflowers and altogether the best and strongest grower. The flowers when first opening have the form of a Rose. As they expand the shell-like silvery pink petals become suffused with bright carmine and show a lovely lilac center. 3 for \$1.00; \$3.00 per doz.

Buhler Kind. A new and lovely, large double white variety blooming earlier than the rest. 3 for \$1.00; \$3.00 per doz.

Kriemhilde. A full double flower of lovely rich pink. 3 for \$1.00; \$3.00 per doz.

Prince Henry. This is the newest double red variety and the flowers are full double. 3 for \$1.00; \$3.00 per doz.

Queen Charlotte. One of the most splendid of the Windflowers and the most lovely of all flowers. Immense quantities of broad and perfectly formed semi-double flowers with the color of the famous pink La France Rose. 3 for 85c; \$2.50 per doz.

Richard Ahrends. The large, splendid single flowers are colored a beautiful, delicate shell-pink overlaid with a lilac hue. 3 for 85c; \$2.50 per doz.

Rubra flora plena. Tremendous quantities of full double rose-colored blooms. 3 for \$1.00; \$3.00 per doz.

September Charm. One of the newer of the Windflowers and one which blooms a little earlier than the others. The flowers, 2 inches or more in diameter, are colored lovely, delicate silvery pink shaded with rose and mauve. 3 for \$1.00; \$3.00 per doz.

Whirlwind. Exquisite double white flowers in the greatest profusion. Whirlwind is Mr. Elliott's personal choice among all the Anemones. 3 for 85c; \$2.50 per doz.

Anemone Japonica

AMERICAN WINDFLOWER

Anemone canadensis. A beautiful and dainty Windflower blooming in the early spring. Handsome plant producing a myriad of dainty white flowers. An exquisite thing in either the rockery or in the front of perennial borders and beds. 3 for 75c; \$2.25 per doz.

If wanted by parcel post, add 13c for each 3 plants.

TROLLIUS (Globe Flower)

These lovely Buttercup-like flowers are first produced in May. If growing conditions are normal they may produce flowers during the entire summer. If September should be cool and moist a third crop may develop, which will remain until frost. The plants are handsome and the brilliant yellow or orange, double Buttercup-shaped flowers are borne on stems about 18 inches tall.

Asiaticus, Salamander. A lovely new variety with large, open flowers colored orange. Earliest of all. The first to bloom with lovely flowers of light orange-yellow.

Europaeus. Glorious blooms 2 inches in diameter on 2-ft. stems, colored waxy lemon-yellow.

Gold Quelle. Large, globe-shaped flowers are a lovely fine orange-yellow color.

Ledebouri. This is the latest to bloom and the magnificent flowers are colored very deep orange.

Meteor. The lovely deep orange flowers are produced in midseason.

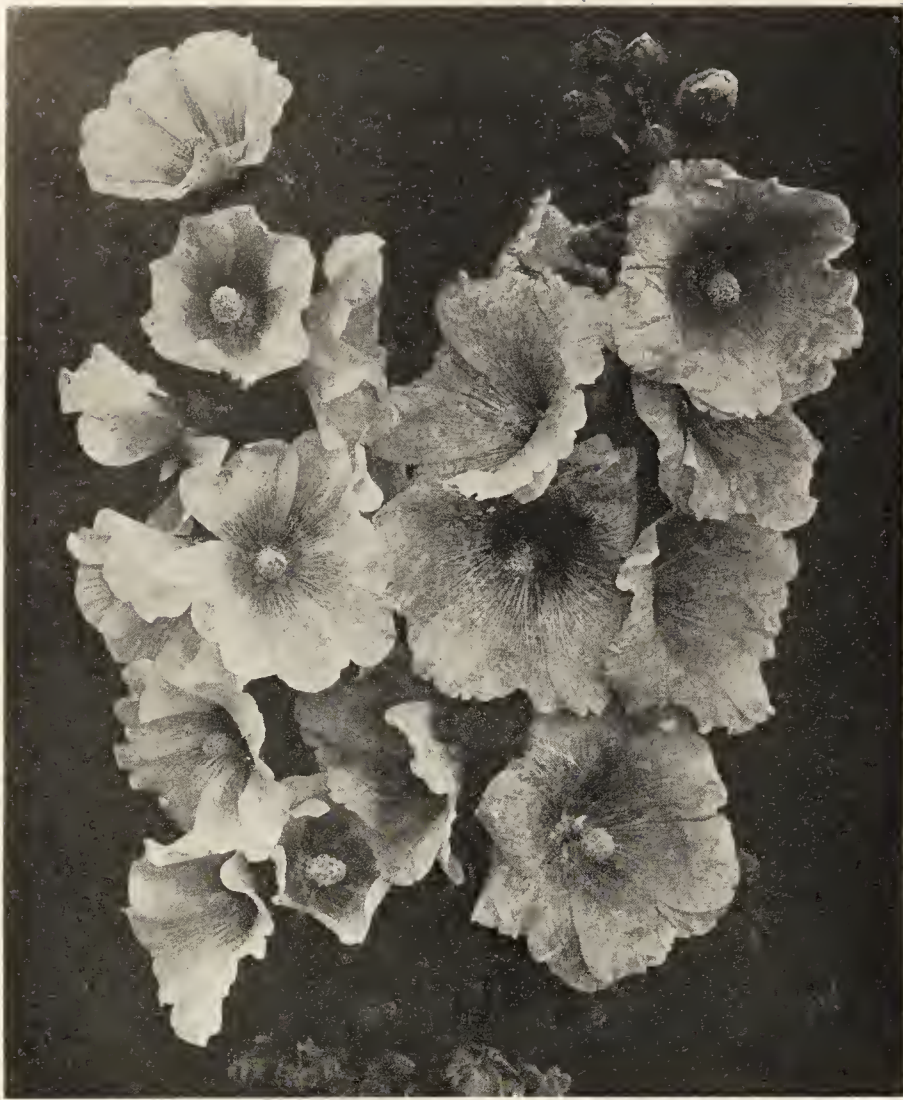

Orange Prince. An exceedingly vigorous variety with unusually large flowers of a rich golden orange color. Probably the most prolific variety both in the early summer and in the autumn.

All varieties listed above: 3 for \$1.10; \$3.25 per doz.

If wanted by parcel post, add 19c for each 3 plants; 48c per dozen plants.

Trollius Europaeus

Single Hollyhocks

Kniphofia—Red Hot Poker

HOLLYHOCKS

HAVE you ever noticed that painters choose Single Hollyhocks as subjects for floral pictures oftener than any other flower? We suppose the reason for this is that artists have a keener appreciation of beauty than other people and recognize that the common, and we fear the sometimes despised, single Hollyhock is the most stately, picturesque and beautiful plant in the world. As every landscape architect knows nothing can be more effective than a large group or mass of single Hollyhocks and, as a consequence, it is impossible to imagine a garden designed by a professional landscape architect which did not include masses of single Hollyhocks. And once planted they will literally take care of themselves, even if planted in the grass. We know of patches that have not been cultivated or disturbed in any way for twenty years. We are determined to have single Hollyhocks for our landscape gardening work, so we collected seed from old-fashioned (they soon will be new-fashioned) gardens and had thousands of plants grown for our customers. Some people think that double Hollyhocks are more beautiful than single. They are mistaken, although the doubles are beautiful, but inclined to be top-heavy, often need staking and are liable to disease.

Imperator Hybrids. The Imperator Hybrids are the newest and loveliest things in Hollyhocks, which means that they are about the loveliest flowers in the world. The flowers measure 6 inches in diameter and the colors include every Hollyhock shade and tint. The petals are beautifully frilled and fringed and in the center is a rosette about 2 inches across. The individual flowers suggest a lovely crested Begonia.

The new Imperator Hybrids have another advantage over the older types in that they are also gorgeous cut flowers. The older Hollyhocks cannot so be used since the flowers wilt rapidly when cut. The new Imperator Hybrids, however, will last a long while in water. As everyone knows, the older Hollyhocks produced a single spike of bloom, whereas these new Imperator Hybrids are branching. The Imperator Hybrids are too new and scarce to be available in separate colors and can be furnished only in mixtures. 3 for 90c; \$3.00 per doz.

Single Hollyhocks Mixed or in Separate Colors. 3 for 75c; \$2.25 per doz.

Double Hollyhocks Mixed or in Separate Colors. 3 for 75c; \$2.25 per doz.

Allegheny Hybrids Mixed. Immense semi-double flowers with fringed edges. 3 for 75c; \$2.25 per doz.

If wanted by parcel post, add 15c for each 3 plants.

KNIPHOFIA (Tritoma) Red Hot Poker

Tall flower spikes $3\frac{1}{2}$ to 4 feet high project above a rosette of long, narrow, grassy foliage.

Tritoma Pfitzeri. Long heads of blazing, rich, orange-scarlet flowers from August to October. 3 for 90c; \$3.00 per doz.

Tritoma, Perry's Hybrids. The colors of this strain range from light yellow to deep orange. 3 for 75c; \$2.50 per doz.

If wanted by parcel post, add 15c for each 3 plants.

PYRETHRUM *(Painted Daisy)*

THE Pyrethrums are so easily cultivated that they are recommended to all who possess a garden. They are perfectly hardy and absolutely invaluable for cut flowers through the summer and autumn months. The flowers are bright and elegantly borne on long stems; most convenient for vase decoration. The Pyrethrums are veritable colored Marguerites and possess a range of color and hardiness that the Marguerites might envy in vain. Nothing can surpass the Pyrethrums for profusion of flowers; flowers succeed flowers without stint, and the blossoms are not injured by storm or sun. The plants may, with advantage, be cut down after June, which will make them keep up a greater succession of bloom throughout the autumn. Pyrethrums grow freely in any ordinary garden soil, and in order to secure size, brilliancy and number of flowers, plenty of ordinary well-rotted manure may be added to well-trenched, well-drained soil, and plenty of water may be given when they are in bud in the dry summer months. The older varieties have been greatly improved upon during the past 10 or 15 years, during which Kelway & Son have made them a specialty, and the refined shape and brilliant or soft shades of the newer sorts have caused the Pyrethrums to become deservedly popular. We offer splendid plants from Kelway's famous strains.

James Kelway Hybrids. A new race of Pyrethrums the flowers of which are colored gorgeous velvety red shades. 3 for 90c; \$3.00 per doz.

Pyrethrum roseum, All Colors Mixed. Rising above the lovely fern-like foliage stand the beautiful flowers ranging in color from pure white to pink, to the deepest crimson. 3 for 75c; \$2.50 per doz.

If wanted by parcel post, add 13c for each 3 plants, 27c per dozen.

The New GYPSOPHILA

Gypsophila Bristol Fairy is incomparably the finest of the Baby's breath. It is truly a wonderful introduction producing large panicles of double white flowers on which the individual blossom is larger than anything that has gone before and the color is the purest white. It flowers continuously and profusely throughout the season. 40c each; \$4.00 per doz.

Gypsophila pacifica. The pink Baby's Breath. 3 for 75c; \$2.25 per doz.

If wanted by parcel post, add 12c for each 3 plants.

BELLIS PERENNIS

English Daisy

The double flowered English Daisies are the best known and best loved of all the spring blooming plants. The bloom is so prolific as to virtually conceal the plant. The plants are adaptable for almost any garden use; edging, rockeries, carpeting bulb beds, etc., etc. We grow only the new Monstrosa strain which produces larger flowers than the older types and more of them.

Monstrosa alba. The new monster white double English Daisy. 3 for 65c; \$2.00 per doz.

Monstrosa rosea. The new monster pink double English Daisy. 3 for 65c. \$2.00 per doz.

If wanted by parcel post, add 13c for each 3 plants.

Pyrethrum Roseum

Gypsophila, Bristol Fairy

Bellis Perennis (English Daisy)

Special Bargain Offer of

NEW varieties of Bearded Iris—varieties so superior that the oldtimers look antiquated and funny—have been introduced. However, these glorious new Iris have been expensive, which discouraged one from discarding the worn-out antiques and replacing them with modern loveliness. Mr. Elliott has been waiting for the day when he could offer his customers the truly great modern Iris at a bargain price.

That day has now arrived. A famous grower of Iris had to have money quickly, so we made a deal with him and we are passing the bargain along to our customers. Naturally, the supply is limited. So it is first come, first served. Orders will be numbered as received and filled strictly in rotation and when these plants are gone the sale is over.

Ambassadeur. A fascinating and indescribably lovely smoky, velvety purple flower with velvety purple-maroon falls; beards and style yellow. A truly regal flower on 48-inch stem.

Asia. A broad and massive flower colored pale silvery lavender, deepening at the base to golden yellow; pale red-purple falls getting lighter towards the margins with a glistening golden yellow beard. One of the tallest of the Iris, unsurpassed in form and beauty.

Candelabra. The flowers are light mauve dusted with violet and the scapes silvery white. The falls are perfectly limp with sharply diversified veins converging into a solid blotch of violet-black at the ends.

Cecil Minturn. The improved Her Majesty. The flowers are soft Cattleya rose color and the beard is pale yellow tipped orange. The best of the so-called pink sorts.

Gold Imperial. A glorious chrome-yellow flower with a conspicuous orange beard. The color is remarkable for its clearness and pureness and the plant and flower have a rare finish and form. Undoubtedly the greatest golden Iris known.

Isolene. Silvery rose flowers flushed bronze. The falls sharply reflexed are Chinese violet-mauve with russet tints and the beard is gleaming golden yellow. The flowers are sweet scented.

Katherine Fryer. Unusually large flowers colored a clear, rich lemon-yellow. The falls are velvety maroon-red with heavy creamy white reticulations; the beard is orange and the flowers sweet scented.

Lent A. Williamson. Campanula-violet-blue flowers with falls of rich, royal purple and a gleaming yellow beard. Tall and distinguished.

Lohengrin. The flowers are rich silvery lilac which show a delightful pink tone in the morning and again in the late afternoon after the sun loses its power. Universally considered one of the best Irises in the world.

Lord of June. Broad flowers of lovely light chicory-blue; falls rich violet-purple with haft marked with widely spaced reticulations of old gold. Giant among the Iris.

Loreley. Perfect shaped flowers colored a deep ultramarine-blue, the falls more or less veined with clear white and bordered sulphur-yellow.

Mother of Pearl. Both the standards and falls are colored lovely pale mauve or bluish lavender with a creamy undertone which give the flowers a pearl cast. Flowers are very large and perfect in form.

NEWER BEARDED IRIS

Mme. Chobaut. The flowers are lovely, rich cream shaded buff and pink and edged with lilac. The falls are white edged violet with a brilliant orange beard. Sweet scented flowers.

Mrs. H. Darwin. The flowers of this variety are pure white; the falls slightly reticulated with a touch of violet at the base.

Opera. Rich purple-red flowers with velvety violet-purple falls. The beard is reddish orange-yellow. Vigorous and lovely.

Pallida Dalmatica (Princess Beatrice). This is probably the only one of the older Iris which deserves a place in the modern garden, since it is still one of the loveliest of all the Iris. The unusually large flowers are a clear lavender-blue shading to silvery blue at the base and they are sweetly scented. The flower stalks are over 3 feet high.

Pioneer. A velvety red-purple flower. There is, of course, no pure red in the Bearded Iris. However, Pioneer is the finest of the so-called reds.

Primrose. The flowers are deep amber-yellow and the flaring falls brighter barium yellow with clear yellow centers. A brilliant flower of wonderful form.

Prosper Laugier. Lovely light bronze-red flowers with velvety ruby-purple falls and a white beard tipped yellow.

Prospero. A gorgeous large sized flower finely formed, colored violet, pale lavender flushed yellow at the base. The falls are deep red-purple with light shading at the margins.

Quaker Lady. The flowers are smoky lavender shaded yellow and the falls are blue and gold with bronze and yellow markings at the base. The beard is orange. A beautiful flower of rare form and finish.

Queen Caterina. Lovely clear orchid-purple flowers veined with brilliant gold and a bright vivid orange beard.

Shekinah. A true yellow Pallida and the first of the type to be produced. The flower is a beautiful shade of pale yellow shading to amber in the throat and the beard is lemon-yellow. Decidedly an unusual flower and a very lovely one.

Sherwin-Wright. A pure rich golden yellow Iris without markings or shades of any sort.

W. J. Fryer. The large flowers are colored bright, clear yellow and the falls are maroon with a narrow yellow border, the center being overshadowed with violet.

Special Bargain Prices: Any one of these varieties, 15c each; 3 for 30c; \$1.10 per doz.

Collection of one each of the 25 varieties, \$2.40; three each of the 25 varieties, \$6.80.

Improved Gaillardias

WE CONSIDER the Gaillardia one of the most beautiful and desirable hardy plants in cultivation, and believe our strain to be the finest extant, and we offer these plants for less than they have ever been sold for, either in this country or Europe. The Gaillardia is, of course, simply invaluable as a cut flower, on account of its being so lasting when gathered and so brilliant and beautiful. The gay blossoms are obtainable in perpetual profusion from June to November, and the greater the drought and scarcity of other flowers the more the utility of the perennial Gaillardia is demonstrated. Some of the varieties of this improved strain measure fully five inches in diameter.

Gaillardia, Improved Giant Hybrids. Since we have always been most enthusiastic in our recommendation of the older types of Gaillardia, we hardly know how to explain our appreciation of this new strain. Emphatically it is an improvement, no doubt whatever about that. The flowers are larger and there are more of them, in the loveliest shades of orange, red and yellow. Like the older types they bloom perpetually from June to November and do not seem to mind drought and other adverse weather conditions, but continue to bloom when other plants curl up and quit. 3 for 65c; \$2.00 per doz.

Gaillardia, Improved Giant Hybrids

Gaillardia, Portola Hybrids. A new race of Blanket Flower similar to the New Perennial Strain excepting that the colors are darker, ranging from reddish bronze to deep gold. Has all the merits of the family. 3 for 65c; \$2.00 per doz.

Gaillardia, The Dazzler. In habit and behavior The Dazzler is similar to the other strains and it has all the merits of the family. The flowers of the Dazzler, however, are brilliant, dark red tipped shining orange. 3 for 75c; \$2.50 per doz.

If wanted by parcel post add 13c for each 3 plants, 27c per dozen.

Geums

GEUM

Lovely tufted perennials producing a wealth of attractive flowers which bloom continually from May to July. The plants grow about 18 inches high and are one of the finest of the garden plants and they may also be used in the larger rockeries. Among professional florists the Geum is in tremendous demand for cut flowers, being considered one of the finest of all hardy plants for this purpose. Try combining Lady Stratheden and Mrs. Bradshaw in one bouquet and you will know why.

Lady Stratheden. Lovely flowers of the richest golden yellow. 3 for 75c; \$2.50 per doz.

Mrs. Bradshaw. Glorious double flowers colored a fiery red. 3 for 75c; \$2.50 per doz.

If wanted by parcel post add 13c for each 3 plants.

TUFTED PANSIES or BEDDING VIOLAS

The Tufted Pansies are hybrids of Pansies and Viola Cornuta, and are quite distinct from Pansies in habit and coloring, and we think far more beautiful. The flowers are smaller, but unique in coloring, and the plants spread from the roots like violets, making them true perennials. They are perfectly hardy, enduring the extremely cold weather of 1933-34 in an open border without protection. They are immensely popular in England and Scotland, where they are generally used for bedding and table decorations, and nothing can be more charming for either purpose. We have always admired these flowers in Scotland, but were not certain that they would thrive in this climate, but after testing them for years in our garden, we know that they will do as well as they do abroad. We have had a splendid lot of plants grown from the best collections in Scotland. They can be planted in the summer, fall or spring.

Admiration. Finest purple.

Apricot Queen. Finest apricot.

Arkwright Ruby. Finest red.

Bosniaca. Finest pink.

Jersey Gem. Dark violet and the finest of all the Violas.

Lutea splendens. Finest yellow.

White Perfection. Finest white.

All the varieties named above: 3 for 60c; \$2.00 per doz.

If wanted by parcel post add 13c for each 3 plants; 27c per dozen.

Tufted Pansy, Jersey Gem

Dianthus Deltoides, Brilliant

DIANTHUS (Grass Pinks)

THE Garden Pinks are very hardy and bloom with wonderful profusion in May and June. The flowers vary greatly in their colors and markings and they are all deliciously fragrant. They should be included in every garden.

Dianthus deltoides, Brilliant. Flowers of the most glowing brilliant crimson-red. 3 for 60c; \$2.00 per doz.

Dianthus latifolius atrococcineus (Double Sweet William). Immense flowers of dazzling deep scarlet. Stunning in the border and effective for cut flowers. 3 for 60c; \$2.00 per doz.

Dianthus plumarius (Grass Pink). A lovely and charming single pink with fringed petals. Flowers are all of light colors but vary greatly in markings so that hardly any two are alike. 3 for 60c; \$2.00 per doz.

Dianthus plumarius semperflorens (Perpetual Pink). Similar in habit to Plumarius but the colors of the flowers are all darker, with an infinite variety of shades and markings. 3 for 60c; \$2.00 per doz.

If wanted by parcel post add 13c for each 3 plants, 27c per dozen.

SEDUM - Stonecrop

A showy group of hardy perennials which anyone can grow and which we have divided into three classes.

THE MOSSY STONECROP

Grow about 1 to 4 inches high, bear diminutive flowers between May and July, and make an exquisite carpet of evergreen foliage which is particularly attractive in winter when some of them assume tones of bronze. Uses for which they are recommended: to convert stretches of sand and rock into carpets of verdant green, to carpet rose and bulb beds, to soften the line and to take away the "new look" in rock and formal gardens.

Acre (Gold Moss). Grows 2 to 3 inches high; yellow flowers in July; leaves are one-fourth inch long. 3 for 60c; \$2.00 per doz.

Album (White Stonecrop). Small, white flowers. 3 for 60c; \$2.00 per doz.

Reflexum (Jenny Stonecrop). Small, bright yellow flowers making up a flat cluster 1 to 1½ inches across. Blooms in July. 3 for 60c; \$2.00 per doz.

Sarmentosum. A splendid dwarf variety for rockeries or border edgings and absolutely the best Sedum for filling seams between rocks in a rock garden. It grows rapidly and the plant is covered with bright yellow flowers during June and July, which transforms it into a soft, attractive yellow carpet. 3 for 60c; \$2.00 per doz.

THE TALL STONECROP

Spectabile. A handsome, erect plant with heavy gray-green foliage; flower stems 18 inches high and covered in August and September with masses of rose colored flower heads. 3 for 60c; \$2.00 per doz.

THE CREEPING STONECROP

Are seldom over 6 inches high; excellent for edging perennial beds and carpeting the ground between shrubs.

Coccineum. A beautiful form growing about 6 inches tall and the plants are covered during July and August with beautiful rosy crimson flowers. 3 for 60c; \$2.00 per doz.

Sieboldi (Siebold Stonecrop). This Japanese variety, with its exquisite glaucous leaves, is considered the best foliage plant in the Sedum family. Flowers rosy pink. 3 for 75c; \$2.50 per doz.

Stoloniferum (Running Stonecrop). Pink flowers in June and July. 3 for 60c; \$2.00 per doz.

If wanted by parcel post add 13c for each 3 plants, 27c per dozen.

Sedum Coccineum

Phlox Subulata

PHLOX SUBULATA Creeping Phlox

The Creeping Phlox have a beauty all their own and, for general usefulness, are not to be surpassed by any flower that grows. They will thrive in any situation, except a very shady one, and in any soil, no matter how poor, unless it is very wet. They are absolutely hardy without protection; hardy during the winter of 1933-34, which killed millions of plants and shrubs, and even trees. They have neat, evergreen foliage, and, when in bloom, which is during the month of May, their multitudes of lovely pink, white or blue flowers cover everything beneath as completely as a carpet covers a floor. They bloom again in September, but not as freely. For covering rocky hillsides, sandy slopes, bare ground too poor to grow anything else, or for edging borders of hardy plants or shrubs, they are unsurpassed.

Subulata alba. Pure white flowers completely covering the plant in May. A lovely thing in the rock garden as are all the Creeping Phlox. 3 for 75c; \$2.50 per doz.

Subulata lilacina. Flowers of a lovely pale lilac. 3 for 75c; \$2.50 per doz.

Subulata rosea. A beautiful rose-pink Creeping Phlox. 3 for 75c; \$2.50 per doz.

Subulata, Vivid. The brightest and most showy of all the Creeping Phlox. The color is an intense vivid pink with a fiery red eye. Unquestionably the finest Creeping Phlox in existence. 3 for \$1.00; \$3.00 per doz.

If wanted by parcel post add 13c for each 3 plants, 27c for a dozen.

Clematis Jackmani

Clematis, Ramona. A truly beautiful blue large-flowered Clematis.
Any of the Large Flowered Clematis: 50c each; \$5.00 per doz.

CHINESE FLEECE VINE (*Polygonum Auberti*)

We have always considered *Polygonum Auberti* the loveliest and most fascinating of all hardy vines. The Chinese Fleece Vine is comparatively new and its unusual beauty is just becoming generally known. Eventually it will be an even greater favorite than the famous Clematis *Paniculata*.

Growing fast, it will cover a trellis, stump or other support in short order. It will climb from 15 to 20 feet or more. The lovely foliage is small but so dense that it makes a perfect screen. The small, ivory-white flowers, borne in loose tasseled panicles, literally cover the upper expanse of the vine in a fleecy cloud of bloom during late August and September. The heavy festoons of flowers on the older plants are beautiful beyond description. 45c each; \$4.50 per doz.

Evergreen Bittersweet

Vines

LARGE FLOWERED CLEMATIS

WE DO NOT remember when the lovely Large Flowered Clematis sold for less than a dollar. For the first time we have secured a collection of first class plants which we can offer at a real bargain. Furthermore, the plants are pot grown, which lessens the shock of transplanting and increases the probabilities of successful results. While the stocks we now have are available, we will sell Large Flowered Clematis at 50 cents each, exactly one-half price. When these plants are gone, the price will be \$1.00 each.

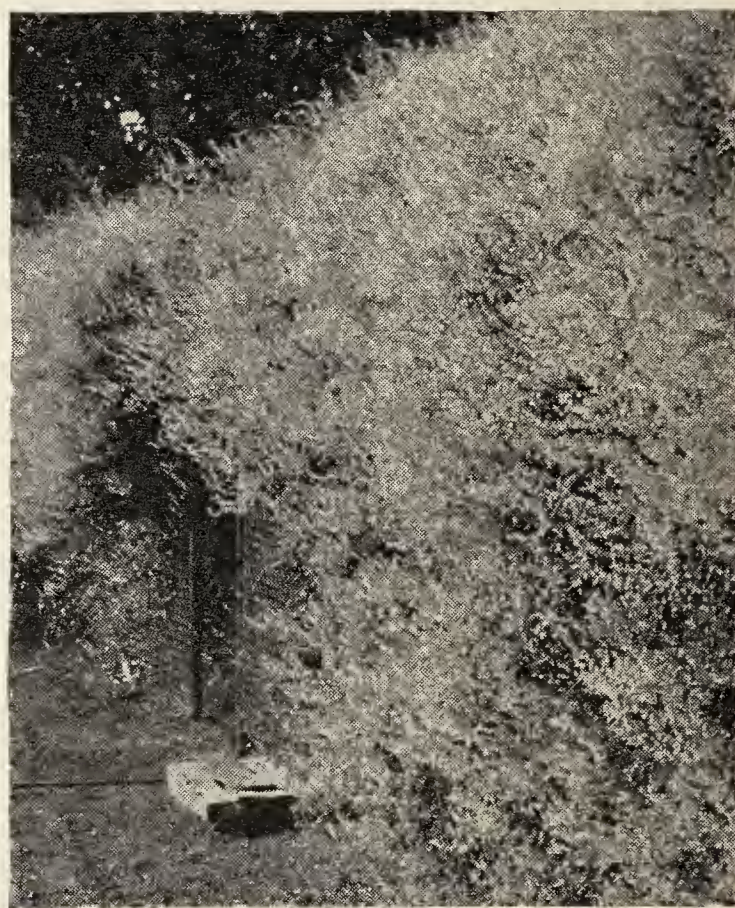

Clematis, Duchess of Edinburgh. The lovely white flowers of this variety are double.

Clematis Henryi. Magnificent white flowers.

Clematis Jackmani. The lovely and ever popular large flowered purple Clematis.

Clematis, Mme. Baron Veillard. The beautiful pink large flowered Clematis.

Clematis, Mme. E. Andre. Glorious large carmine-red flowers.

Chinese Fleece Vine

The Famous EVERGREEN BITTERSWEET

The Evergreen Bittersweet will climb 30 feet and cling to any unpainted masonry wall; stone, brick, concrete, etc. It is the only evergreen vine in cultivation hardy north of the Mason and Dixon Line. Like all evergreens it develops slowly for the first two or three years but when fully developed is magnificent. In addition to the lovely evergreen foliage, it produces when fully developed, a magnificent crop of gorgeous scarlet berries.

It may also be used as a dwarf hedge to take the place of Box where Box will not stand.

Evergreen Bittersweet. 35c each; \$3.50 per doz.

All Vines by parcel post, add 16c for each three vines, single vine 12c.

HARDY PERENNIALS

ACHILLEA, Cerise Queen. Lovely cerise flowers borne in large flat heads. Excellent cut flowers. 18 inches high. 3 for 75c; \$2.25 per doz.

A., ptarmica, The Pearl. Pure, double white flowers all summer. Indispensable for cutting. 3 for 75c; \$2.25 per doz.

ACONITUM Fischeri (Monkshood). While this plant will grow in the full sun, it has the additional advantage of succeeding in the shade or semi-shade and may even be grown under trees. Furthermore, it blooms in September when flowers in the garden are getting scarce. It is a stately plant, growing 2½ to 3 feet tall, and the foliage is decorative and attractive. The color of the flower is a lovely dark blue. 3 for 85c; \$2.50 per doz.

AEGOPODIUM podagraria variegatum. A rapid growing ground cover with fine green and yellow foliage. A border plant for shrubbery or for covering waste grounds. Thrives anywhere. 3 for 75c; \$2.25 per doz.

AJUGA reptans rubra (Bugle). A dwarf creeping plant which will grow in either the sun or the shade. Indispensable in the rockery or for edging perennial borders, carpeting bare spots or for filling in where there is no room for larger plants. Ajuga grows about 4 inches high and the foliage has a lovely bronzy cast. The plant is covered with lovely deep purplish blue flowers in May and June. 3 for 75c; \$2.25 per doz.

Aster alpinus

This variety is grown for its lovely, deeply cut silvery white foliage. The plants are 18 inches tall. 3 for 70c; \$2.25 per doz.

ARMERIA maritima splendens (Sea Pink). A dainty, dwarf perennial plant with grassy leaves. The tufted plants grow about six inches tall and are covered with lovely pale pink flowers in May and June. Specially desirable for edging or for planting in crowded places. Indispensable in the rockery. 3 for 65c; \$2.00 per doz.

ASTER alpinus. A lovely dwarf Alpine Aster growing about 8 inches high and bearing in May and June the loveliest light blue daisy-like flowers. Splendid for the flower garden or in the rockery. 3 for \$1.00; \$3.00 per doz.

A. alpinus, Dark Beauty. Identical in size, habits and uses as Alpinus excepting that the daisy-like flowers are a lovely, luscious dark blue. 3 for \$1.00; \$3.00 per doz.

ASTILBE Arendsi. These hardy plants are easily grown in the perennial border, and should give quantities of blooms all summer. In general they are quite tall, varying from 3 to 5 feet, according to the soil conditions and location. A new type obtained by crossing one of the older varieties with some of the new Japanese introductions. The plants are of vigorous growth, and produce feathery heads of flowers on many-branched stems. This variety will succeed in ordinary garden soils, if shaded from hot sun and given plenty of moisture.

Artemisia, Silver King

ALYSSUM saxatile compactum. Freely used in rockwork, as the plants make a splendid mat. The flowers are golden yellow, borne very freely in small clusters in early spring. 3 for 75c; \$2.25 per doz.

ANTHERICUM liliastrum major (St. Bernard's Lily). This lovely plant has narrow grassy leaves and the Lily-like flowers are borne in the most graceful sprays. It will grow in the full sun or the partial shade but it should not be planted in the full shade. Cut, it makes lovely bouquets either alone or in combination with other flowers. The flower spikes are 1½ feet tall and the lovely white Lily-like flowers bloom in May and June. 3 for 75c; \$2.25 per doz.

ANTHEMIS, New Hybrids (Hardy Marguerite). A new strain, a distinct improvement over the old Kelwayi with handsome finely cut foliage with flowers colored yellow, golden and white. Blooming in June and July. 3 for 75c; \$2.50 per doz.

ARABIS alpina fl. pl. (Rock Cress). This lovely little semi-creeping plant is equally useful as an edging plant or for low borders or in the rockery. In the spring it is literally concealed with masses of lovely, double white flowers which are large enough to cut for small bouquets and which last a long time when cut. 3 for \$1.00; \$3.00 per doz.

ARTEMISIA, Silver King. The startlingly new Southenwood and absolutely one of the best of the decorative plants. The white leaved foliage makes the plant look as though it were made of frosted silver, which gleams in the sunlight, producing a color contrast which can be secured with no other plant. It makes the most wonderful bouquets either alone or in combination with other flowers. If cut just before the first frost and put in a vase without water, it will last for months throughout the winter. We can suggest nothing as useful either for the garden or for the house. 3 for 75c; \$2.50 per doz.

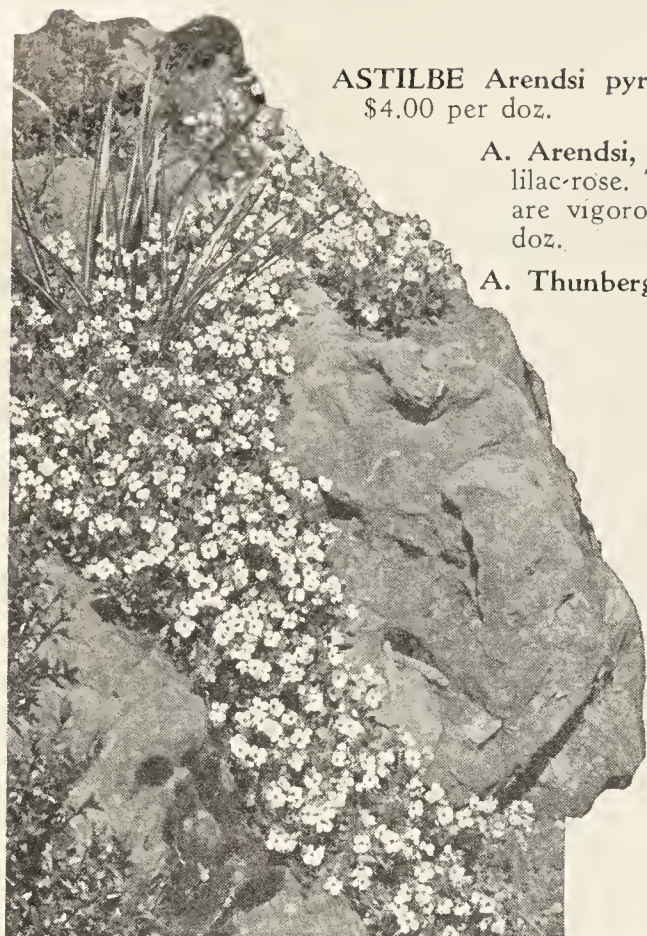

A. stelleriana (Old Woman).

Armeria Maritima Splendens

If wanted by parcel post, add 13c for each 3 plants; 27c per dozen.

HARDY PERENNIALS—Continued

Aubrietia Deltoides

CAMPANULA (Bellflower)

Carpatica (Harebell). A splendid, compact little perennial plant growing about 8 inches high. The lovely clear blue bells are held erect on wiry stems. The plant blooms continuously from June until October. Unsurpassed for the hardy border or rockery. 3 for 75c; \$2.50 per doz.

Carpatica alba. Identical with Carpatica excepting that the flowers are pure white. 3 for 75c; \$2.50 per doz.

Latifolia. A beautiful perennial Bellflower growing about 2½ feet and producing in July a heavy crop of beautiful blue, bell-like flowers. 3 for 75c; \$2.50 per doz.

Medium. The famous biennial Canterbury Bell. It grows about 3 feet tall and its numerous branches are thickly crowded with deep bells, the edges of which are softly rolled back and fluted. It is available in any one of four colors: blue, rose, white and lilac, as you prefer. It blooms in July and in addition to its garden value is one of the most desirable cut flowers. 3 for 70c; \$1.75 per doz.

Medium calycanthema (Cup-And-Saucer Canterbury Bells). Similar to the Canterbury Bell excepting that at the base of the bell there is a large saucer. The loveliest of biennials and one of the loveliest flowers in existence. Available in pink, white and blue or in mixture, as you prefer. 3 for 70c; \$1.75 per doz.

Persicifolia grandiflora. The lovely large bells colored cerulean blue are borne on stems 2½ feet tall and bloom in July. 3 for 75c; \$2.50 per doz.

Persicifolia grandiflora alba. One of the finest of the Bellflowers and a really great perennial. The large, glistening white bells are borne on 2½ foot stems. 3 for 75c; \$2.50 per doz.

Rotundifolia (Bluebells of Scotland). This is the famous Bluebell of song and verse known by everybody. The plants are small, growing about a foot tall and covered in June with the famous blue bells which give it its name. 3 for 75c; \$2.50 per doz.

Campanula Medium

BOLTONIA latisquama (Starwort). A large perennial plant related to the Asters. It grows about 5 to 6 feet tall, is most graceful in habit and in the fall is covered with the loveliest lavender-pink flowers imaginable. 3 for 60c; \$2.00 per doz.

CALAMINTHA alpina (Calamint). A graceful little edging or rock garden plant growing about six inches high, which will stand partial shade. Useful as an edging plant. It is one of the finest of the rock garden plants and in the spring is covered with the loveliest rich purple flowers. 3 for 60c; \$2.00 per doz.

CASSIA marilandica (American Senna). A beautiful plant with foliage resembling the acacia. Grows best in strong sun. Bright yellow flowers in July and August. 3 to 4 feet. 3 for 60c; \$2.00 per doz.

CERASTUM Biebersteini (Snow-in-Summer). A low growing plant with a multitude of small white flowers; foliage silvery white, and the entire plant makes a desirable edging or carpeting for borders and beds; attractive throughout the entire season. 3 for 75c; \$2.50 per doz.

C. tomentosum. Vigorous growing variety with gray foliage. 3 for 60c; \$2.00 per doz.

CHELONE barbatus Torreyi. This lovely and charming perennial produces flower spikes about three feet tall crowned with the brightest orange scarlet flowers. An outstanding garden plant which is also a favorite for cutting. 3 for 75c; \$2.25 per doz.

COREOPSIS, Mayfield Giant. The older Coreopsis grandiflora was absolutely indispensable both for the garden and for cut flowers. If one gardened at all, one simply had to have it. The new Mayfield Giant is similar excepting that the flowers are a little larger and the yellow color is cleaner and more brilliant. 3 for 60c; \$2.00 per doz.

Chelone Barbatus Torreyi

If wanted by parcel post, add 13c for each 3 plants; 27c per dozen.

DICENTRA spectabilis (Bleeding Heart). The Bleeding Heart is one of the plants known the world over wherever men and women garden. It is so popular that it is hard to imagine a garden without it. It was found in your great grandmother's garden and it will be found in the garden of your great granddaughter. It has finely cut, fernlike foliage and bears long racemes of graceful, heart-shaped, pink flowers. It will grow in the sun or in the shade. 3 for \$1.40; \$4.00 per doz.

DORONICUM excelsum (Leopardbane). This lovely hardy plant has large yellow flowers, 2½ to 3 inches across, which resemble the tender Marguerite of the florists' shops. The flowers are produced in the early spring. The plant is not only one of the finest in the perennial garden, but the flowers make very lovely bouquets. 3 for 75c; \$2.50 per doz.

FESTUCA glauca (Blue Fescue Grass). Deep silvery blue leaves which are quite narrow. Desirable in ornamental groups or hedges. Used in hanging-baskets, window-boxes and rockeries. 3 for 65c; \$2.00 per doz.

FILIPENDULA hexapetala fl. pl. Lovely plants of delicate fernlike foliage producing a dense head of double, pure white flowers in June, borne on 12-inch stems. 3 for 60c; \$2.00 per doz.

HELENIUM Hoopesi. The orange-yellow flowers with the orange-yellow disc borne on long stems make this plant specially desirable for the garden or for cutting. 2 to 3 feet. May to September. 3 for 60c; \$2.00 per doz.

HELIANTHEMUM mutabile (Sunrose). A most dainty and lovely dwarf evergreen shrubby perennial specially effective on dry banks or in rock garden. The plants spread rather rapidly and keep up a succession of dainty rose-like flowers throughout the season. 3 for 75c; \$2.25 per doz.

Filipendula Hexapetala Fl. Pl.

New Hybrid Day Lilies (Hemerocallis)

Dr. A. B. Stout of the New York Botanical Gardens has performed a horticultural miracle. He has hybridized the older Hemerocallis, always among the loveliest and most fascinating plants in existence, to create a new race of Day Lilies of indescribable beauty. The only thing that prevents these new Day Lilies from being planted by the million is that there are only a few thousand available in the entire world. We ourselves have been able to secure only fifty plants in each of the varieties. These plants are offered subject to prior sale and orders will be filled strictly in rotation as received.

NEW HYBRID DAY LILIES

Cinnabar. Delicate brownish red sepals and petals glistening golden; throat cadmium-yellow; outer half of petals sprinkled with rich fulvous red. Bloom spreads 5 inches. \$3.00 each.

Ophir. Dark golden yellow flowers 5 inches across. One stem frequently carries twenty-five or more of these giant golden Lilies. \$1.00 each.

Sir Michael Foster. The clear yellow flowers with long trumpet-shaped throats measure from 5 to 6 inches across. \$1.00 each.

Vesta. Deep orange flowers with a glistening golden sheen. \$3.00 each.

Wau-Bun. Large flowers of cadmium-yellow, slightly sprinkled with traces of fulvous red. Flowers glisten as though made of gold. \$3.00 each.

STANDARD VARIETIES OF DAY LILIES

Apricot. A new variety of exquisite apricot color. 3 for 75c; \$2.25 per doz.

Aurantiaca major. Dark, glowing orange, sweet scented flowers. 3 for 75c; \$2.25 per doz.

Flava minor. Golden yellow, flowers fluted and waved. 3 for 75c; \$2.25 per doz.

Florham. A strong growing variety with deep golden yellow flowers very freely produced. 3 for 75c; \$2.25 per doz.

Kwanso Double. A large, double flowered variety with rich golden bronze flowers. 3 for 75c; \$2.25 per doz.

Ochroleuca. Tall, very strong, erect stems with crimped, handsome flowers of light yellow and sweet, lemon-like odor. 3 for 75c; \$2.25 per doz.

Queen of May. A beautiful orange-colored Day Lily producing from 15 to 18 flowers on each stem, which is 5 to 6 feet tall. Blooms from May until August. 3 for 75c; \$2.25 per doz.

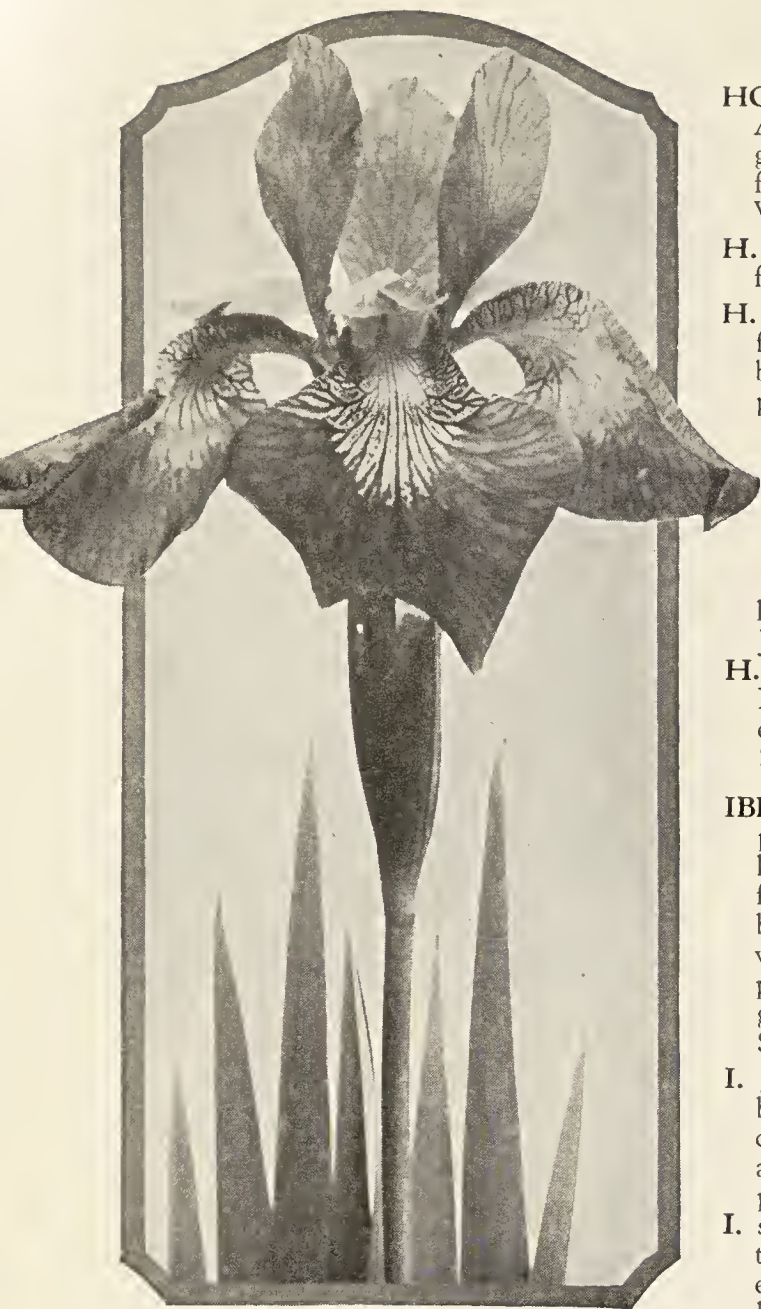

Hemerocallis

HEUCHERA sanguinea (Coralbells). Handsome plants with heart-shaped leaves, neat and compact, which may be used in perennial borders, flower beds or the rock garden. The lovely graceful flowers are borne in panicles on 18-inch stems. The flowers are a shimmering coral-red and are produced from June to September most freely. Like all the Coralbells, Sanguinea is great for cut flowers. 3 for 75c; \$2.50 per doz.

H. sanguinea rosea. Identical with Sanguinea excepting that the flowers are a lovely bright pink. 3 for 75c; \$2.50 per doz.

H. splendens. The flowers of this variety are brilliant, rich crimson in color. 3 for 65c; \$2.00 per doz.

Siberian Iris, Perry's Blue

HARDY PERENNIALS—Continued

HOSTA (Day Lily; Plantain Lily). Among the hardiest and most easily grown perennial plants. Particularly effective as a border for a walk or path. Will bloom all summer.

H. Aoki. Large bluish green foliage. 3 for 75c; \$2.50 per doz.

H. caerulea (Blue Day Lily). Light blue flowers rise 12 to 18 inches above the broad green leaves. 3 for 75c; \$2.50 per doz.

H. major pallida. Similar in habit to Sieboldiana with large leaves, light blue flowers. 3 for 75c; \$2.50 per doz.

H. Sieboldiana. The flowers rise only a few inches above the metallic blue foliage and are pale blue. Late June. 3 for 75c; \$2.50 per doz.

H. subcordata grandiflora (White Day Lily). Tall spikes of small white flowers. Extremely desirable for cutting. 3 for 75c; \$2.50 per doz.

IBERIS cordifolia (Candytuft). Small plants growing 8 to 10 inches, with a handsome evergreen foliage. Desirable for edging, as a ground cover for spring blooming bulbs or rockeries. In May, when the plant is in bloom, it is completely hidden by a myriad of large, glistening snow-white flowers. 3 for 65c; \$2.00 per doz.

I. gibraltarica. Similar in appearance and behavior to the other Candytufts, excepting that the flowers of Gibraltarica are lovely lilac in color. 3 for 65c; \$2.00 per doz.

I. sempervirens. This variety grows taller than the other Candytuft, being the tallest of the group. It is a foot or more high and the flowers are white. 3 for 65c; \$2.00 per doz.

LYCHNIS chalconica. This variety grows 3 feet tall and produces heads of intense, vivid scarlet flowers. It blooms all summer and is the brightest and most conspicuous plant in the garden. 3 for 60c; \$2.25 per doz.

L. viscaria splendens (Ragged Robin). Handsome plants with narrow foliage blooming in June. It sends up flower stems 14 inches or so long crowned with the most vivid brilliant vermilion-red flowers. 3 for 60c; \$2.25 per doz.

MYOSOTIS palustris semperflorens (Forget-Me-Not). Everybody is so familiar with the Forget-Me-Not that it would be a bore to try to describe it. So we will merely say that Semperflorens is an improved form with larger, richer blue flowers and a brighter yellow eye than the type. Charming in itself it is a most gracious gesture for the host or hostess to add a spray of the blooms when serving fancy mixed drinks such as mint juleps or iced tea. 3 for 75c; \$2.50 per doz.

NEPETA Mussini. A lovely dwarf plant growing about 1 foot high and spreading from 12 to 15 inches with attractive gray-green foliage. Flowers all spring and intermittently during the midsummer. It is covered with masses of pale lavender-blue flowers. One of the most desirable of all edging plants for the perennial border and indispensable in the rock garden. 3 for 60c; \$2.00 per doz.

OENOTHERA Glauca Fraseri. Produces large yellow flowers borne in clusters on stems 2½ to 3 feet tall. Flowers in midsummer. 3 for 60c; \$2.00 per doz.

PACHYSANDRA terminalis (Japanese Spurge). Dwarf, evergreen plants 6 to 8 inches high, branching freely and forming a dense mat or sod. The evergreen foliage is thick, rubbery and a luscious green, and the plant bears spikes of light colored flowers during May and June. It is most effective for bordering walks and drives, or for covering steep slopes to prevent washing. It is the best ground cover in existence for planting in hot, dry situations or under trees where nothing else will grow. \$2.50 per doz.; \$18.00 per 100.

INCARVILLEA Delavayi (Hardy Gloxinia). A lovely hardy plant with handsome pinnate foliage which produces spikes 18 inches tall, crowned with splendid trumpet-shaped flowers borne in terminal racemes. The flowers are colored a lovely rosy pink and in shape and appearance resemble the famous Gloxinia of the conservatory and are their equals in beauty. 3 for \$1.10; \$3.25 per doz.

SIBERIAN IRIS

The Siberian Iris are tall, stately plants growing between 3 and 3½ feet tall, blooming in the early spring and most effective either for garden planting or for cut flowers.

Perry's Blue. One of the loveliest Irises in existence. The flowers are extra large and clear blue. The blue of this variety is delightful, being clear, clean and bright and tremendously conspicuous in the garden. No other Iris has a color as lovely. 3 for 75c; \$2.50 per doz.

Snow Queen. An exquisite Iris, the flowers of which are snow-white, and large and beautifully formed, and produced in tremendous quantities. 3 for 60c; \$2.00 per doz.

Superba. Lovely rich violet-blue flowers. 3 for 60c; \$2.00 per doz.

LINARIA alpina. Handsome trailing plants with attractive grayish green foliage bearing myriads of orange and purple flowers, which resemble a miniature Snapdragon. Blooms are produced all summer and autumn. 3 for 75c; \$2.50 per doz.

LINUM perenne (Flax). Handsome plant with attractive feathery leaves blooming freely from May to August. The slender flower stems are about 2 feet high crowned with beautiful, pale blue flowers. 3 for 75c; \$2.50 per doz.

L. alba. Identical with Perenne excepting that the flowers are milk-white. 3 for 75c; \$2.50 per doz.

LYTHRUM roseum superbum (Rose Loosestrife). Grown readily in moist soil or among shrubbery. Flowers are rose-colored, borne freely in July and August. 3 to 5 feet. 3 for 60c; \$2.00 per doz.

Pachysandra Terminalis (Japanese Spurge)

PHALARIS arundinacea variegata (Ribbon Grass). The leaves of this lovely plant, which grows 18 inches high, are striped longitudinally with white which contrasts sharply with the green in the foliage. A most attractive foliage plant. 3 for 75c; \$2.25 per doz.

PHYSOSTEGIA virginica, Vivid (False Dragonhead). This is a semi-dwarf form growing 2 feet tall and blooming throughout July and September. It is one of the easiest of all perennials to grow. The flowers are a lovely bright violet-pink which last a long time in water when cut. 3 for 60c; \$2.00 per doz.

PLUMBAGO larpentae. Lovely low growing plants with small leathery heart-shaped leaves, bronzy green in color. The plant is spreading in habit and grows 6 to 8 inches and is covered with deep blue flowers during the late summer and fall. Marvelous for edging and indispensable for rock gardens. 3 for 75c; \$2.50 per doz.

POLEMONIUM caeruleum (Jacob's Ladder). Takes its common name from the manner in which the leaflets are arranged. The flowers are bell-shaped, blue or white and about an inch across. 1 to 3 feet. May and June. 3 for 85c; \$2.50 per doz.

P. reptans. A dwarf bushy plant with fine foliage and graceful habit which never becomes shabby. Lovely blue flowers borne on stems 6 inches long in the early spring. For the border or for the rock garden. Plants will stand almost full shade. 3 for 60c; \$2.00 per doz.

RUDBECKIA purpurea (Giant Purple Coneflower). Very large purple flowers of a most attractive color with a large brown cone-shaped center. Blooms from July to October and grows 3 feet high. One of the most distinguished and effective plants possible for the hardy border. 3 for 75c; \$2.50 per doz.

Salvia nemorosa (Violet Sage). The plant is a dwarf rosette of foliage from which arise during July and August splendid spikes of lovely violet flowers. Unlike the Scarlet Sage, this plant is hardy and perennial. 3 for 75c; \$2.50 per doz.

S. pratensis. Lilac-blue flowers 2 feet high from June to September. 3 for 75c; \$2.50 per doz.

SAPONARIA ocymoides splendens (Soapwort). Handsome, small-leaved border and rockery plant; will thrive in soil too poor for best development of flowering plants. Flowers rosy pink. May and June. 3 for 75c; \$2.50 per doz.

SAXIFRAGA cordifolia (Heart-Leaved Saxifraga). Bright pink clusters of flowers in very early spring, followed by broad, shining, dark green leaves. Sun or semi-shade, moisture. March and April. 1 to 2 feet. 3 for 60c; \$2.00 per doz.

S. ligulata (Leichtlin's Saxifraga). A similar form with dark pink flowers and crimson leaves. Half shade, moisture. April and May. 12 to 18 inches. 3 for 90c; \$3.00 per doz.

SCABIOSA caucasica (Mourning Bride). Soft lavender-blue flowers, excellent for cutting, are borne from June to September. 2 to 3 feet. 3 for \$1.00; \$3.00 per doz.

S. columbaria. Newest of the Scabiosas which bears very large, lovely pink flowers. 3 for \$1.00; \$3.00 per doz.

Statice Latifolia

S. japonica (Japanese Scabiosa). Lavender-blue flowers; very free flowering from June to September; fine for cut flowers; lovely. 3 for \$1.00; \$3.00 per doz.

SILENE Schafta (Catchfly). Low-growing plant with rose-pink flowers in clusters. Useful for edging and rock garden. June to September. 3 for 60c; \$2.00 per doz.

SPIREA ulmaria fl. pl. (Meadowsweet). Double white flowers in large, thick clusters are produced in June and July. 3 feet. 3 for 60c; \$2.00 per doz.

STACHYS lanata (Woundwort). Foliage woolly, white or very light green. The flowers are quite small, light purple, and carried in clusters of thirty or more. 1 to 2 feet. 3 for 75c; \$2.25 per doz.

STATICE latifolia (Limonium latifolium). (Broad-leaved Sea Lavender). The famous Baby's Breath is the most popular plant in the world for embellishing bouquets and is used literally by the millions. Splendid as the Baby's Breath is for this purpose, the Sea Lavender is even better. If the amateur gardeners knew what we professionals know, the nurseries of America could not supply the demand for this great plant. Its lacy, delicate, lovely lavender-blue flowers are incomparably the finest bouquet embellishment in existence; besides the plants are indescribably lovely in the garden. 3 for 65c; \$2.25 per doz.

STOKESIA laevis (Stokes' Aster). A most charming and beautiful native hardy plant. The plant grows from 18 to 24 inches high, bearing freely from early in July until late in October, its handsome lavender-blue, centaurea-like blossoms which measure from 4 to 5 inches across. It is of the easiest culture, succeeding in any open sunny position, and not only is it desirable as a single plant in the hardy border, but it can also be used with fine effect in masses or beds of any size. 3 for 75c; \$2.50 per doz.

S. laevis alba. Pure white variety of above. 3 for 75c; \$2.50 per doz.

THALICTRUM adiantifolium (Meadow Rue). A lovely plant with graceful, finely divided foliage which resembles the foliage of the Maidenhair fern. In June it sends up 2-foot spikes of feathery, miniature white flowers. It may be grown in the perennial border or bed or planted in front of shrubbery, and makes the most delightful bouquets either alone or in combination with other flowers. 3 for 75c; \$2.50 per doz.

T. aquilegifolium. The foliage of this graceful beautiful variety resembles that of the Columbine. The flower spikes are from 2 to 3 feet tall and the feathery flowers are lovely rosy purple, blooming in June and July. 3 for 75c; \$2.50 per doz.

THYMUS lanuginosus (Woolly-Leaved Thyme). An almost prostrate creeping perennial with fragrant foliage. Specially suitable for growing in dry, hot spots such as sunny banks, rock gardens or between the crevices of rocks where it will spread and make a mat. Foliage is woolly green and the flowers in June and July are bright shining pink. 3 for 65c; \$2.25 per doz.

T. coccineus (Crimson Thyme). The foliage of this variety is smaller with a reddish cast and in June and July the plant becomes completely covered with brilliant scarlet flowers. 3 for 65c; \$2.25 per doz.

VALERIANA (Garden Heliotrope). Showy heads of flowers during June and July with strong heliotrope odor.

V. White. 3 for 65c; \$2.25 per doz.

V. Red. 3 for 56c; \$2.25 per doz.

FIELD-GROWN PLANTS

40c each

\$4.00 per doz.

New Butterfly Bush ILE DE FRANCE

NOTWITHSTANDING the fact that the color of the older Buddleias or Butterfly Bushes was somewhat vague and washed out, giving the shrubs a rather indefinite effect in the border, nevertheless, these plants have been for years the most popular shrubs in cultivation. However, the weak color was a standing challenge to plant breeders. Sooner or later some hybridist would meet the issue and produce a really first class Butterfly Bush.

This has now been accomplished and Ile de France is the answer. Its color is real and substantial, a brilliant rosy purple with a violet suffusion that actually stands out and is visible in the landscape. In addition the flowers are fragrant, which is also new among the Butterfly Bushes. The individual flower spikes are very large, measuring 10 inches in length. The shrubs develop into well-branched symmetrical bushes 3½ to 4 feet tall. A truly great creation. Field grown plants, 40c each; \$4.00 per doz.

¶ If wanted by parcel post, add 19c for each three plants. ¶

Orders Subject to the Following:

Terms of Payment. Invariably cash on delivery. We deliver the goods and mail bills at the same time, and expect payment within a few days. People unknown to us please send cash or references with orders.

Prices and Packing. Prices are subject to stock offered being unsold when ordered. Six plants of a kind will be furnished at the dozen rate; 50 or more at the 100 rate. Less than 6 plants of one kind or variety will be sold only at the single rate. All prices f. o. b. point of origin.

Forwarding. Shipments will be forwarded exactly as directed, but when instructions are not given we will forward by shortest and fastest route.

Claims for Damages. We guarantee the safe arrival of plants shipped by Express and Parcel Post. Goods shipped by Freight travel at customer's risk.

Shipping Directions. Please give exact shipping directions, stating whether the stock is to be shipped by parcel post or express.

Inspection. Our stock is regularly inspected, and certificates will be sent with each shipment.

No Agents Employed. We employ no agents whatever, but do an exclusive retail business direct with our customers.

Please Print Your Name and Address on your order. Many times it is extremely difficult to read these two important parts of an order, and the shipment may go astray.

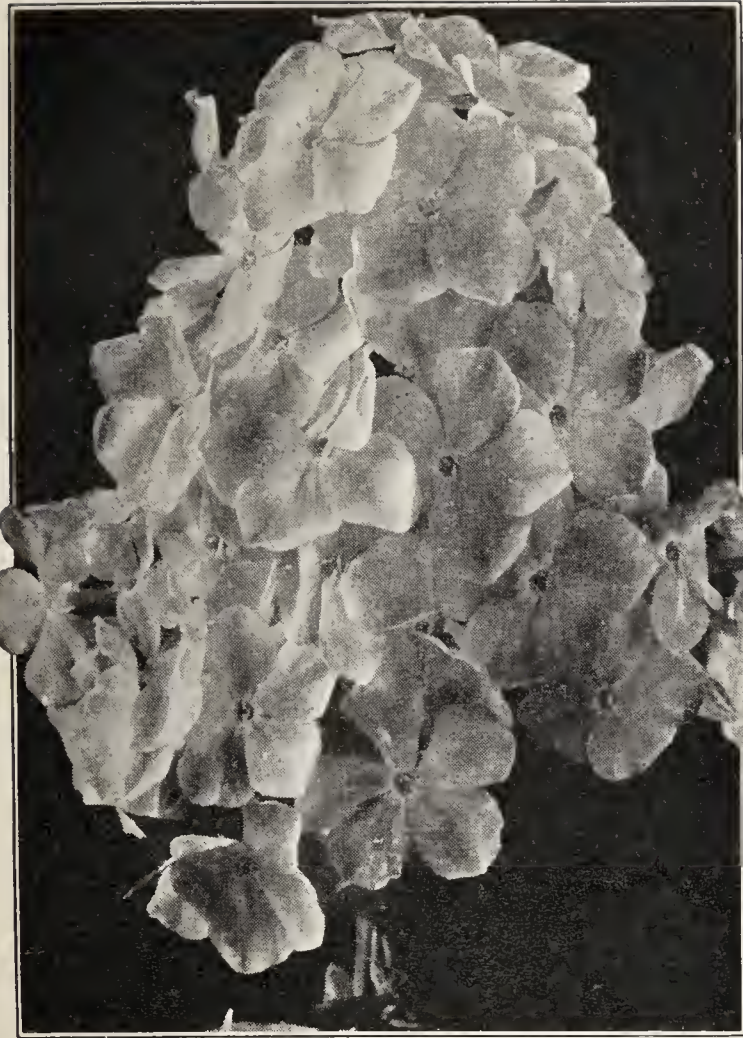

Guarantee. We guarantee all nursery stock furnished by us to be first class and true-to-name. We do not guarantee it to grow, or stand good for the result in any way. **Complaints must be made immediately upon receipt of stock.** There are so many causes for failure over which we have no control, that we can assume no responsibility after the stock is delivered in good order. Poor soil, changeable weather, ignorant or careless culture—all contribute to failure. A catalog as comprehensive as this must of necessity offer some varieties of difficult culture; when these are ordered we presume the people ordering have the knowledge, enthusiasm and perseverance, and these we cannot supply.

[illegible]

Columbia

Commander. Spikes 30 inches high crowned with immense heads of the most wonderful brilliant deep crimson-red flowers. A most prolific bloomer and the most brilliant red Phlox of them all. 3 for 90c; \$3.00 per doz.

Feuerbrand. Vivid, glowing orange-scarlet flowers produced continuously throughout the season. The most brilliant Phlox known. 3 for 90c; \$3.00 per doz.

Leo Schlageter. Splendid flower heads of the most gorgeous flaming scarlet. The best of the red varieties.

Miss Lingard. The plant has beautiful, long, shiny leaves and is absolutely free from all diseases. It produces from 2 to 3 crops of flowers a season from June until October. The flower heads are immense and the individual flowers are of the loveliest, clean, pure white with just a faint pink shading in the center. The best and most satisfactory Phlox.

Mme. Paul Dutrie. Lovely flowers of the softest, most soothing pink. Unique and beautiful.

Mrs. Jenkins. A pure white variety which flowers late and is the best white Phlox for planting in masses.

Painted Lady. Tall, stately stem bearing masses of flower heads colored a lovely silvery pink with salmon shadings and a cherry-red eye.

Pink Beauty. A new Phlox of the Miss Lingard type having all the merits of Miss Lingard. It has the same fine foliage, freedom from disease and flowers as often and as finely. The flowers, however, last about twice as long as Miss Lingard and the color is the loveliest clear mauve-pink. 50c each; \$4.50 per doz.

Rhineland. Lovely salmon-pink. Both flower and truss are immense size and the color is intensified by a brilliant carmine eye.

Rijnstroom. Both flowers and trusses are immense. The color is a lovely rose-pink contrasted with a brilliant vermilion eye.

Special French. Mammoth trusses of beautiful flowers of a pure pink that glows and shimmers in the sunlight.

Von Lassburg. Immense trusses of pure white flowers blooming earlier than the other whites.

William Kesselring. Mammoth individual flowers colored intense violet with a distinct white eye.

Tall Hardy PHLOX

THE beauty and usefulness of these grand border perennials give them first place among the hardy plants. Their large trusses are incomparable for cut flower decorations. In color they range from pure white to the richest crimson and from soft rose to brightest coral-red. All have delicate fragrance. Phlox succeed in almost any soil and if the first blooms are removed as soon as over and the plants given a soaking of water, they will produce a second supply of flowers often finer than the first.

NEW PHLOX COLUMBIA

(Plant Patent No. 118)

The color is an exquisite cameo-pink with a faint blue eye and produces an effect never before seen in Phlox. The clearness of tone is remarkable and the marvelous brilliant color does not fade into purple as the flower ages. The flower crop is immense. A well-grown plant will produce 15 flower spikes 2½ feet high. Mildew, black spot or dead leaves are unknown to this variety. Unquestionably the finest of the pink Phlox and probably the finest of all Phlox. 50c each; 3 for \$1.35; \$4.50 per doz.

Non-Patented Varieties of Phlox

Africa. (New). Brilliant carmine-red with blood-red eye. Fine stem and large flower heads. Best of the dark varieties.

Beacon. A tall Phlox 36 inches high with gorgeous brilliant cherry-red flower heads borne on straight, strong stems. The best light red.

B. Comte. Splendid heads of brilliant, dark purple-red or amaranth flowers.

Blue Hills. The nearest to blue and incomparably the best.

JAPANESE IRIS

THE Japanese Iris, unquestionably the loveliest of all the Iris, have always been high priced, costing 75c to \$1.00 a plant. Now, for the first time in the 45 years we have been in business, we are able to offer our customers a real bargain. The plants are of the same quality that we charged 75c up for last spring and the varieties are identical. However, there are only 15,000 of them, just about 1 plant to 5 customers, so we must number our orders as received and guarantee to fill the orders strictly in rotation. We play no favorites and the late comers will be disappointed.

Japanese Iris are the last to bloom, flowering in late June and early July.

Astarte. A heavy double flower, colored lovely dark violet.

Circe. A gorgeous large violet-blue flower, the petals of which are finely lined with pure white.

Eumee. This variety has a single flower of a lovely dark violet shade.

Gekka-No-Nami. Glistening white flowers embellished with creamy white stigmas. Earliest to bloom and very choice.

Gold Bound. Lovely double, pure white flowers with a gold band throughout the center which casts a creamy glow over the entire flower.

Koko-No-Iro. Enormous rich purple colored flowers with white petaloids tipped violet.

Plume. White flowers lightly veined with blue. High center petals delicately colored mauve and blue.

Proserpine. Single flowers colored rich, bright blue with shadings of velvety blue and white.

Reine de Bulgares. The flowers are the deepest blue shading to light blue with white veins.

Rose H. Scheepers. Large, double flowers of lovely delicate mauve-grey overlaid with blue.

Ski-No-Ryo. Gorgeous double blue flowers shaded white.
